

## CTSA Doctor Selected to Present Abstract at Annual ASTRO Meeting

June 9, 2010

The American Society for Therapeutic Radiology and Oncology (ASTRO) has selected Ajay Bhatnagar, M.D., to present his abstract titled, "The Initial Experience of Electronic Brachytherapy for the Treatment of Non-Melanomatous Cutaneous Malignancies" at the 52<sup>nd</sup> Annual ASTRO meeting. The abstract is based on his experience with using modern electronic brachytherapy technology, eBx™ from Xofigo, Inc. Dr. Bhatnagar has been treating patients at Cancer Treatment Services Arizona with this new technology since June 2009.

Bhatnagar's work will be displayed during two poster viewing sessions. These sessions will be scheduled between Sunday, October 31 and Wednesday, November 3, 2010 at the San Diego Convention Center.

### About Cancer Treatment Services International, L.P.

Cancer Treatment Services International L.P. (CTSI L.P) is a provider of comprehensive treatment for cancer patients with a main focus on medical oncology and radiation oncology. The company was founded by a core group of physicians and businessmen with substantial experience in the development, operation and networking of cancer services on a national and international level. CTSI is able to provide innovative and technologically-advanced treatment solutions to areas of the world where therapy is currently inadequate in either quality or capacity. The company currently operates clinics and has development projects both in the U.S. and internationally.
