

CTSA Holds Open House

January 10, 2008

On January 10, 2008, Cancer Treatment Services Arizona welcomed the public in for an Open House. CTSA Staff provided personalized tours for community members including area doctors. The tour showcased the meticulous planning that went into building the facility such as the large Nursing Stating that will serve as a learning and training environment as Cancer Treatment Services International expands. Also highlighted by CTSA staff were the newest technologies available in the CT Scanner and the Varian Trilogy Radiation System.

About Cancer Treatment Services International, L.P.

Cancer Treatment Services International L.P. (CTSI L.P) is a provider of comprehensive treatment for cancer patients with a main focus on medical oncology and radiation oncology. The company was founded by a core group of physicians and businessmen with substantial experience in the development, operation and networking of cancer services on a national and international level. CTSI is able to provide innovative and technologically-advanced treatment solutions to areas of the world where therapy is currently inadequate in either quality or capacity. The company currently operates clinics and has development projects both in the U.S. and internationally.
